

EZ-LED™

Horizontal Bike Rack

Visibility & Security

Kinetic's proprietary EZ-LED™ horizontal bike rack design offers a unique way to leverage solar energy bringing light to unlit bike parking spaces.

With a customized solar panel securely embedded into the rack, the EZ-LED™ provides downward ambient lighting to the surrounding area.

Perfect for city streets or on campus where getting regular power is difficult and costly.

Experience the Kinetic difference.

Kinetic EZ-LED™ Horizontal Bike Rack
